**Country Dialling Code (Tel/Fax): ++1-268**

**Antigua Department of Tourism:** Lower Nevis Street and Friendly Alley St John's Tel: 462-0480 Fax: 462-2483 E-mail: [info@antigua-barbuda.org](mailto:info@antigua-barbuda.org) Website: [www.antigua-barbuda.org](http://www.antigua-barbuda.org)

**Capital:** St John's **Time:** GMT - 4

**Background:** The islands of Antigua and Barbuda became an independent state within the British Commonwealth of Nations in 1981. Some 3,000 refugees fleeing a volcanic eruption on nearby Montserrat have settled in Antigua and Barbuda since 1995.

**Location:** Caribbean, islands between the Caribbean Sea and the North Atlantic Ocean, east-southeast of Puerto Rico

**Map References:** Central America and the Caribbean

**Area:** total: 442 sq km (Antigua 281 sq km; Barbuda 161 sq km) land: 442 sq km water: 0 sq km note: includes Redonda

**Climate:** tropical marine; little seasonal temperature variation

**Terrain:** mostly low-lying limestone and coral islands, with some higher volcanic areas

**Natural Resources:** NEGL; pleasant climate fosters tourism

**Population:** 66,422 (July 2000 est.)

**Nationality:** noun: Antiguan(s), Barbudan(s) adjective: Antiguan, Barbudan

**Ethnic Groups:** black, British, Portuguese, Lebanese, Syrian

**Religions:** Anglican (predominant), other Protestant, some Roman Catholic

**Languages:** English (official), local dialects

**Economy:** Tourism continues to be the dominant activity in the economy accounting directly or indirectly for more than half of GDP. In 1999 the budding offshore financial sector was seriously hurt by financial sanctions imposed by the US and UK as a result of the loosening of its money-laundering controls. The government has made efforts to comply with international demands in order to get the sanctions lifted. The dual island nation's agricultural production is mainly directed to the domestic market; the sector is constrained by the limited water supply and labor shortages that reflect the pull of higher wages in tourism and construction. Manufacturing comprises enclave-type assembly for export with major products being bedding, handicrafts, and electronic components. Prospects for economic growth in the medium term will continue to depend on income growth in the industrialized world, especially in the US, which accounts for about one-third of all tourist arrivals.

**Industries:** tourism, construction, light manufacturing (clothing, alcohol, household appliances)

**Currency:** 1 East Caribbean dollar (EC\$) = 100 cents
