

## RHODE ISLAND, USA

SLOGAN: OCEAN STATE  
ABBREVIATION: RI

**State Dialling Code (Tel/Fax): ++1 401**

**Rhode Island Tourism Division:** 1 West Exchange Street, Providence, RI 02903 Tel: 222 2601 or 800 556 2484 (toll free) Fax: 273 8270 E-mail: [visitrhodeisland@riedc.com](mailto:visitrhodeisland@riedc.com) Website: [www.visitrhodeisland.com](http://www.visitrhodeisland.com)

**Capital:** Providence **Time:** GMT – 5

**Background:** Rhode Island entered the Union on May 29, 1790, as the last of the 13 original states (although it had been the first to declare independence in 1776). One of the first non-Native American settlers in the area of Rhode Island had been the religious leader Roger Williams, who in 1636 founded Providence, now the state capital. In the late 18th century the first US textile mill driven by water-power was built in Rhode Island. In the early 1990s manufacturing was the state's second leading economic activity, exceeded only by the service sector. The origin of the state's name is unclear; it may refer to the island of Rhodes in the Aegean Sea or derive from a Dutch word meaning "red". Rhode Island is known as the "Ocean State" or "Little Rhody". Its major cities are Providence (the capital), Warwick, Cranston, Pawtucket, and East Providence.

**Population:** According to the 1990 census, Rhode Island had 1,003,464 inhabitants, an increase of 5.9 per cent over 1980. The estimated population for 1997, however, showed a fall-back to 987,429. The average population density in 1990 was 315 people per sq km (815 per sq mi), the second highest density in the United States. Whites made up 91.4 per cent of the population and blacks 3.9 per cent; additional population groups included some 3,987 Native Americans, 3,655 people of Cambodian ancestry, 3,170 people of Chinese background, and 2,579 people of Laotian origin. Approximately 45,750 people were of Latino background.

**Location:** Rhode Island, in full, State of Rhode Island and Providence Plantations, one of the New England states of the United States, bordered on the north and east by Massachusetts; on the south by Rhode Island Sound and Block Island Sound (arms of the Atlantic Ocean); and on the west by Connecticut. Narragansett Bay deeply indents the south-eastern part of the state. The Pawcatuck River forms part of the south-western boundary.

**Area:** With an area of 3,188 sq km (1,231 sq mi), Rhode Island is the smallest US state; about 0.7 per cent of its land area is owned by the federal government. The state is roughly rectangular; its extreme north to south distance is 98 km (61 mi), and its extreme east to west distance is 64 km (40 mi). Elevations range from sea level to 247 m (812 ft), from the top of Jerimoth Hill in the north-west. Rhode Island includes about 35 islands, most of which are in Narragansett Bay in the south-east. Larger islands are Rhode Island (Aquidneck), Conanicut Island, Prudence Island, and Block Island (New Shoreham). The state has a coastline of 64 km (40 mi) and a 618-km (384-mi) tidal shoreline, which takes in land bordering tidal inlets as well as coasts of islands.

**Industries:** Rhode Island's yearly mineral output is worth only about \$11 million. Leading products are limestone, granite, sand and gravel, and gemstones. Rhode Island has a small farming sector. Leading farm commodities are greenhouse and nursery items, dairy products, eggs, potatoes, hay, apples, beef cattle, pigs, and chicken.

There is an insignificant forestry industry, but fishing—with an annual catch worth about \$75 million—is of some importance; the main species landed include flounder, lobster, clam, squid, scallop, butterflyfish, bluefish, tuna, scup, cod, herring, and whiting. Manufacturing accounts for about 21 per cent of the annual gross state product. The state's chief products are metals, precision instruments, clothing and textiles, printed materials and plastic items, industrial machinery, electronic goods, transport equipment, chemicals, and processed foods.

**Ports and Harbors:** 7

**Airports:** 1
